LAWN GRASS SEED

Lawn Grass Seed

We offer only high-grade, clean grass seed that will grow. In the grass seed mixtures only suitable kinds of grass are included. Cheap undesirable kinds are not used. For best results, sow 1 pound per 400 square feet for new lawns and half that amount for repairing established lawns.

Evergreen Mixed Lawn Grass Seed—Our own special mixture of grass seeds suited for growing together in the central and northern states. Is formed of grasses which keep green from early spring all through the summer. Per lb., 60c postpaid. Not prepaid, 50c per lb.; 5 lbs. or more at 45c per lb.

Shady Place Mixtures—This mixture is a combination of fine, dwarfgrowing evergreen varieties of grass which grow naturally in shaded spots, to make a fine lawn under shade trees. Heavy seeding makes quick sod. Price per lb., 65c; 3 lbs., \$1.80, postpaid. Not prepaid, 60c per lb.; 5 lbs. or more at 55c per lb.

Terrace Lawn Mixture—This is a mixture of grasses which have strong and spreading roots, making a close turf which heavy rains cannot wash out easily. Per lb., 65c; 3 lbs., \$1.80, postpaid. Not prepaid, 60c per lb.; 5 lbs. or more at 55c per lb.

Kentucky Blue Grass—"Iowa Shield" Brand. We pride ourselves on this extra choice grade, which is of such unusual purity and high germination. Lb., 70c, prepaid. Not prepaid, 60c per lb.; 5 lbs. or more 55c per lb.

White Clover—"Iowa Shield" Brand. The well-known common white clover. Lb., 70c postpaid. Not prepaid, 60c per lb.; 5 lbs. or more at 55c per lb.

Creeping Bent Grass—It makes a very fine close turf of excellent color. The advantage of Creeping Bent is that it will thrive on acid soils and can be fertilized with Ammonium Sulphate, which discourages weeds. Sow 1 lb. to each 300 square feet. 1 lb., \$1.50; 3 lbs. \$3.75 postpaid.

Lawn Fertilizers

Peerless Fertilizer—Peerless Fertilizer is of best quality, dry, finely pulverized, easy to apply, practically non-odorous. In preparing a new lawn or top dressing on established lawn use 25 to 50 lbs. per 1,000 sq. ft. Not prepaid, 10-lb. pkg., 60c; 25 lbs., \$1.25; 50 lbs. \$2.00; 100 lbs., \$3.50.

Sheep Manure—This is a natural manure, unadulterated. Not prepaid, 10 lbs. for 60c; 50 lbs., \$1.75; 100 lbs. for \$3.00.

Pure Bone Meal—It is clean, free from odor and gives results in added growth of grass. Not prepaid, 10 lbs., 60c; 50 lbs., \$2.00; 100 lbs., \$3.75.

Sacco—This is a complete fertilizer for lawn, garden or flowers. Its chemical analysis is 4-12-4. Use at the rate of 3 to 5 lbs. per 100 square feet. Not prepaid, 5 lbs., 50c; 10 lbs., 85c; 25 lbs., \$1.75; 50 lbs. \$3.00, 100 lbs., \$5.00.

Vigoro—A plant food for general use, finely pulverized and practically nonodorous. Analysis 4-12-4. A Swift & Co. product. Use 25 lbs. per 1,000 square feet. Not prepaid, 5 lbs., 50c; 25 lbs., \$1.75; 50 lbs., \$3.00; 100 lbs. \$5.00.

Loma—A scientifically prepared plant food for lawns, gardens, trees and shrubs. Analysis 5-10-4. Not prepaid, 5 lbs., 60c; 10 lbs., \$1.10; 25 lbs., \$2.00; 50 lbs. \$3.50; 100 lbs. \$6.00.

ASPARAGUS ROOTS

FARM SEED DEPARTMENT

All the wealth of Agriculture is taken from the soil. No matter how rich the soil the right seed must be selected to turn this fertility into marketable form.

The best seed is always cheapest in the end, for it makes the most profit for the grower.

In selecting crop seed we keep in mind, always, the greatest yield with the least labor.

IOWA SHIELD BRAND SEED has made its reputation on this basis. Free from weeds, hardy varieties, high yielding strains, all make for a higher yield per acre with less labor per bushel.

Iowa Shield Brand seeds are not sold through dealers. Order direct from us to get the genuine Iowa Shield Brand.

SHIPPING—Our shipping facilities are excellent, and we can give you prompt service. We do not pay freight or express on farm seeds, but we deliver to the depot here and furnish bags without charge.

PRICES—Prices named in this department are subject to important market changes. We print a weekly price list during the spring season. If you will write us, sending list of your requirements, we will take pleasure in sending samples and quoting latest prices.

You take no risk when you order from us as all orders are sent out with the understanding that seed must be satisfactory to you or it may be returned to us within 15 days and the money paid will be refunded. This gives you time to inspect and test or to have it inspected and tested by any authority, and we will abide by the report. There is no sale until you are satisfied.

ABOUT WARRANTING—We thoroughly test all our seeds and nothing is sent out which we do not believe to be good in every respect. However, we give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs, or plants we send out, and we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned, and the money paid for same will be refunded. We know of no responsible seed firm in the world which guarantees seeds any further than this.

Seed Disinfectants

The treatment of seeds with Semesan Disinfectants shows a decided improvement in the quality and quantity of the crop. You should use these treatments on all the seed you plant. Ask for descriptive circulars. They are free.

CLOVER AND GRASS SEEDS

Clovers

We do not handle imported clover or alfalfa as quality is always inferior, besides the danger of weed seeds.

Medium or Common Red Clover—This is the most important of all clovers and the standard everywhere for hay and pasture. See Red Ink List.

Mammoth Red Clover—This is also called Sapling or Pea Vine clover. It resembles the Medium Red, but grows coarser and more vigorous. See Red Ink List.

Alsike Clover—Alsike clover is a perennial variety and because it does not die out, it is preferred for permanent pastures and meadows. See Red Ink List.

White Dutch Clover—The low-growing, creeping, hardy, white-flowered sort. Its principal use is in permanent pastures. Per lb., 75c, postpaid. See Farm Seed Price List for quantity prices.

Timothy and Alsike Mixture—We mix this ourselves to safeguard quality and proportion. Twenty-five pounds Alsike to 75 pounds Timothy. See Red Ink List.

Alfalfa

Grimm—We are offering true Dakota-grown stock of this variety. We use the greatest care to provide our customers with genuine Grimm. Per lb., 60c; 3 lbs., \$1.75, postpaid. See Farm Seed List.

South Dakota No. 12—A select strain of common Alfalfa. Our seed is South Dakota grown and very hardy. Per lb., 50c; 3 lbs. for \$1.45, postpaid. See Red Ink List.

Sweet Clover

White Biennial (Melilotus Alba, or Bokhara)—The white-flowered variety. Per lb., 30c; 3 lbs., 75c. See Red Ink List.

Yellow Biennial (Melilotus Officinalis)—Very similar to the white-flowered. Not so rank and coarse. Lb., 30c; 3 lbs., 75c. See Red Ink List.

Hubam, Annual Sweet Clover—This is the annual white-flowered Sweet Clover. Price, 50c per lb.; 3 lbs., \$1.40, postpaid.

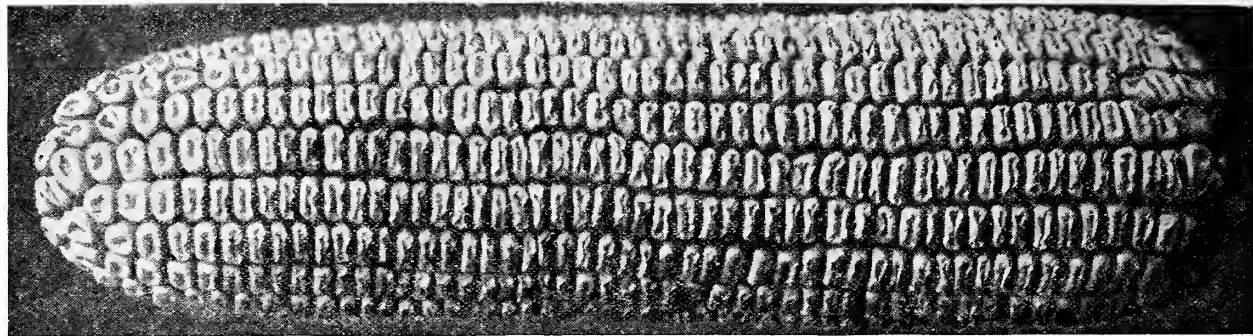

Grass Seed

Timothy—Is the foundation grass for meadow and pastures. Per lb., 25c; 3 lbs., 50c, postpaid. See Red Ink List.

Orchard Grass—Thrives better in shaded situations than other grasses. Per lb., 40c; 3 lbs., \$1.00, postpaid. See Farm Seed Price List.

Perennial Rye Grass—Also known as English Rye Grass. Lb., 40c; 3 lbs., \$1.00, postpaid. See Farm Seed Price List.

IOWA GOLD MINE CORN

Seed Corn

All our seed corn has been grown right here in Polk County. It has been harvested before frost and carefully cured to protect its vitality. All the harvesting and preparation of our seed corn has been supervised by men who have had several years of experience in the production of seed corn. This means that the seed corn you buy from us will produce a much better return than poorly harvested corn grown from crib-run seed. The varieties we offer are leaders throughout the Corn Belt.

Iowa Gold Mine—This wonderful yellow variety was one of the first we originated. Extremely deep grain, with small cob. Matures early, making an excellent feeding corn. A good yielder. Prices: Not prepaid—7 lbs., 90c; peck, \$1.50; bushel, \$5.00; 10 bushels, \$47.50.

Iowa Silver Mine—This large white variety was introduced by us years ago. It is the standard white kind, and will produce well on poor soil. Matures in 100 days in this section. Prices: Not prepaid—7 lbs., 90c; peck, \$1.50; bushel, \$5.00; 10 bushels, \$47.50.

Krug Yellow Victor—This wonderful yellow corn has made good throughout the Corn Belt. It is an early maturing, high yielding type that stands at the head of the list of pure-bred varieties. Prices: Not prepaid—7 lbs., 90c; peck, \$1.50; bushel, \$5.00; 10 bushels, \$47.50.

Pride of the North—An extra early yellow variety originated near the Minnesota line. The ears are 7 to 8 inches long with small cob. Very uniform and matures in this section when planted in June. It is suitable for late planting when you have been unable to plant the larger varieties at the proper time. Prices: 7 lbs., 90c; peck, \$1.50; bushel, \$5.00; 10 bushels, \$47.50.

Longfellow Flint—The best yellow variety of flint corn. Ready to feed nearly a month ahead of the Dent varieties. A good yielder that makes excellent live stock feed. Prices: Not prepaid—7 pounds, 90c; peck, \$1.50; bushel, \$5.00; 10 bushels, \$47.50.

Copper Cross Corn—This is the pioneer of the crossbred corns. It has given very satisfactory results for five seasons. An excellent high yielder for the central and north central sections of the state. Prices: Lb., 50c, postpaid. Not prepaid, 7 lbs., \$1.50; peck, \$2.75; bushel, \$8.00.

Hi-Bred Corn—This yellow cross-bred corn has been produced by the Hi-Bred Corn Co. and, by special arrangement with them, we are enabled to offer it to our customers. Ask for booklet telling more about this wonderful new corn. Prices: Pkt., 10c; lb., 50c, postpaid. Not prepaid, 7 lbs., \$1.75; peck, \$3.00; bushel, \$11.00.

Seed Oats

Iogold—This wonderful new variety is the latest introduction by Prof. L. C. Burnett at Ames College. Although yellow in color its high yielding quality has placed it at the head of the list. Per bu., \$1.40; 10 bu. or more at \$1.30.

The Iowar Oat—Professor Burnett's introduction at Ames College. The professor says it is three days later, three inches taller, and yields three bushels per acre more than White Kherson (Iowa 103). Per bu., \$1.00; 10 bu. or more at 90c.

White Kherson (Iowa 103)—A very early white variety. It is without doubt the most popular variety in our state. Per bu., \$1.00; 10 bu. or more at 90c.

The Richland Oat (Iowa 105)—The best variety for rich, strong land. The grains are medium sized, light yellow in color, plump and heavy. Per bu., \$1.00; 10 bu. or more at 90c.

Seed Wheat

Marquis—We have found it the best beardless variety for Iowa planters. Grows stiff, strong straw of medium height, has round dark red kernels and matures early. Popular because free from beards. Per lb., 25c; 3 lbs., 50c, postpaid. Per bu., \$2.00. See Red Ink List.

Early Java—The early bearded sort that is so prolific and gives best returns in the Corn Belt. Per bu., \$2.00. See Red Ink List.

Seed Barley

Oderbrucker—Improved strain of standard six-row barley. It is an early variety, very strong, stiff straw, stands up and stools well. Per lb., 25c; 3 lbs., 60c, postpaid. See Red Ink List for quantity price.

Velvet—Barley has always been very valuable for feeding and this new smooth bearded variety does away with all objections to growing barley. It yields better than the bearded sorts. See Red Ink List.

Seed Rye

Mammoth Spring Rye—Does not stool like winter rye. Not less than two bushels to the acre should be sown. Per bu., \$2.50. See Red Ink List for quantity price.

Monster Winter—It is usually sown in the fall. If sown early in the spring, it makes an early and abundant pasture, but makes no grain crop. Per bu., \$2.25. See Red Ink List for quantity price.

Buckwheat

Buckwheat is a valuable crop. Generally sown in July and fills up vacant plots at a time when all other planting is past. Use one-half bushel seed per acre.

Japanese—Is more productive than any other and succeeds well farther north. Lb., 25c; 3 lbs., 60c, postpaid. See Red Ink List for quantity price.

Seed Flax

Our seed is thoroughly re-cleaned. Per lb., 15c; 8 lbs., \$1.00, not prepaid. See Red Ink List for quantity price.

Broom Corn

Evergreen—The brush is noted for fine quality, good length and handsome appearance. Lb., 25c; 3 lbs., 65c, postpaid. See Red Ink List.

Sunflower

The very best poultry feed for winter.

Mammoth Russian—Extremely large sunflower. Large pkt., 5c; lb., 25c; 3 lbs., 50c, postpaid. By freight or express, not prepaid, 10 lbs., \$1.50; bu., (25 lbs.), \$3.50.

White Canada Field Peas

Their value is for early hay. Sow early as the ground can be worked, one bushel of peas to two bushels of oats per acre. Cut when oats are in milk. Lb., 25c; 3 lbs., 60c, postpaid. See Red Ink List for quantity price.

Cow Peas

Cow Peas—We can supply the Whippoorwill variety. Per lb., 25c; 3 lbs., 60c, by mail postpaid. See Red Ink List for quantity price.

Perennial flowers are so satisfactory that every garden should have a perennial border or, at least, a corner where they can grow undisturbed. They will increase in beauty from year to year. We list varieties that are perfectly hardy and ones that should do well in any soil.

Our Iowa climate, with its cold winters and hot, dry summer weather, produces hardy perennial plants that are exceptionally vigorous and capable of withstanding even more severe climates.

All of our perennials are field grown and are shipped the day they are dug. We are sure that their quality will please you.

While the use of peat moss is comparatively new in this section, we believe that it can very profitably be used where barnyard fertilizer is not available. It improves the physical condition of the soil and if it is mixed with commercial fertilizer the results obtained will be very satisfactory. It can also be used as a mulch for perennials and is especially valuable for roses. Not prepaid, 10 lbs., 60c; 25 lbs., \$1.75; 150-lb. bale, \$5.00.

Garden Cultivator

This well-made garden cultivator will work ideally in the perennial garden. It is light and yet strong enough for practical use. The handle is long to prevent stooping. These garden cultivators can be supplied with 3 or 5 teeth. The 3-tooth style at \$1.00 and the 5-tooth at \$1.25, by express.

TIGRINIUM SPLENDENS

Hardy Lilies

Because of their stately beauty the Hardy lilies are being widely used. They require little care and add materially to the attractiveness of any permanent planting. Plant either fall or spring and most of them will bloom the first season.

Hardy Ferns

Hardy ferns are being used in quantity for massed planting and for corners about the house where the sun does not strike. Such places can be wonderfully beautified by the use of hardy ferns.

For best results hardy ferns should be planted in ordinary garden soil to which has been added leaf mold. If the ground is not sloping it will be well to raise it between two and three inches to improve the drainage. Ferns should not be planted too deep. The crown should be left exposed to the air.

Adiantum Pedatum (Maidenhair Fern)—The most graceful of all our native ferns. Attains height of 12 to 15 inches when grown in rich soil in moist, shady location. 25c each; \$1.50 dozen; \$12.00 per 100, postpaid.

Hybridum, Miss Willmott. The large white flowers are produced in stately spikes, rising to a height of 5 to 6 feet and continue from July to frost. Each, 25c; 3 for 60c; doz., \$2.00; postpaid.

New and Unusual Flowers for Your Garden

Abronia

Umbellata Grandiflora (Sand Verbena). A charming trailing succulent plant, with Verbena-like heads of fragrant flowers of bright rose with white center; it delights in a dry, poor soil and sunny situations on rockwork. Pkt., 10c.

Anagallis

Grandiflora Coerulea. It is one of the most charming and conspicuous of our low growing blue flowers, but must have a sunny place to do well. The plants spread rapidly and bloom freely. The flowers are of a real turquoise-blue color. Pkt., 15c; ¼ oz., 50c.

Anchusa

Capensis (Summer Forget-me-not). A showy plant with bright Gentian-blue flowers, borne in drooping racemes from July to October. The stems and leaves are hairy. Similar in all respects to the Forget-me-not, though the blossoms are much larger and of finer color. Pkt., 10c.

Cosmos

Hollywood Star. This odd variety appeared in the Crested Cosmos a few years ago. It has a center from which issue closed quilled-like petals the tips of which are cut and slightly curled. It is a mixture of red, white and pink. Pkt., 25c.

Erysimum (Fairy Wallflower)

Perofskianum. A pretty annual, growing about 18 inches high, bearing throughout the summer dense racemes of brilliant orange-yellow Wallflower-like flowers, a rather unusual color in annuals. It is of the simplest culture. Sow the seeds in the open ground in spring and give it a sunny position. Pkt., 10c; ¼ oz., 20c.

Eschscholtzia

Ramona. A single flower with frilled edges which gives it an appearance of a semi-double. The color is a pale but glittering coppery gold with pink shadings. Pkt., 15c.

Gaura

Lindheimeri. 3 ft. A graceful plant with strong, leafy stems, bearing numerous spikes of white flowers flushed with pink from July until frost. Especially sun-loving and drouth-resisting. Pkt., 10c.

Gilia

Capitata (Blue Thimble Flower). 2 ft. Beautiful bushy plant of erect habit with fine feathery foliage covered all summer with rich lavender-blue flowers. 1 inch across, much like *Scabiosa*. Makes a good cut flower as the blooms last well in water. Pkt., 10c.

Larkspur

Improved Exquisite. Upright growth and color a soft pink shaded salmon. Pkt., 15c.

La France. The flowers are a pleasing salmon-pink, very large and double, well-placed on long stems. Pkt., 25c.

Malope

(Mallow-Wort). 2 ft. Showy plants for large mixed flower and shrubbery borders. The flowers are large and handsome. Flowers blush, shaded pink toward center. Pkt., 10c.

Poppy

Tulip (Glaucum). 20 in. Large tulip-shaped flowers of dazzling scarlet; not unlike a Scarlet Von Thol Tulip. Pkt., 10c.

Rudebeckia

Bicolor Superba (Coneflower). 2 ft. Produces an abundance of bright yellow flowers with brown central disc; fine for cutting. Pkt., 10c.

Sanvitalia

Procumbens. An annual of dwarf compact growth; useful in masses in beds, or edges of borders, or in vases, baskets, etc. Showy bright yellow, double flowers; in bloom all summer. Pkt., 10c.

Tagetes

Signata Pumila. A dwarf, compact, bushy annual Marigold, with beautiful, fern-like leaves, densely covered with flowers of bright, golden-yellow; first class border plant; 9 inches. Pkt., 10c; ¼ oz., 40c.

Zinnia

Mexicana Hybrida. 16 in. Flowers the size of a large daisy, single, semi-double and double, and the colors are in the most unique, pleasing and numerous variations. In it are found shades peculiar to the Marigold, the Gaillardia, and the Chrysanthemum. They are extremely free-flowering and pretty. Pkt., 15c.

SACCO
TRADE MARK REGISTERED
PLANT FOOD
Makes things Grow!

Sacco Plant Food is the product of one of the oldest and best known manufacturers of Plant Foods and fertilizers. It has been scientifically proved that practically every soil is deficient in some or all of the vital plant feeding elements. Sacco is a perfect blend of these essential elements—clean, odorless and easy to use. Concentrated, a small amount goes a long way.

A single application of Sacco Plant Food on your lawn will brighten and improve its growth in a week or ten days. Frequent light applications will keep it green and luxuriant throughout the summer and fall. A thickly matted turf is soon developed, crowding out and gradually eliminating dandelions, plantain and other weed pests. Sacco is easy to use—simply scatter it by hand as you would sow grass seed. Apply to flower beds in the same manner and scatter about the base of shrubs. Specific instructions for the amounts needed for various plants are included in every package of Sacco Plant Food.

Prevent Disease Losses by Using Du Bay Seed Disinfectants

SEMESAN—for vegetable and flower seeds

Diseases often reduce germination and result in a poor stand, lowered quality and reduced yield of vegetables and flowers. Kill these harmful disease organisms on the seed with Semesan before planting. Semesan may be applied as a dust or liquid and is harmless to seeds. Effective in controlling damping-off of seedlings and certain cuttings. Full directions in can for use on vegetable and flower seeds and bulbs. Prices: 2 oz. \$.50; 1 lb., \$2.75; 5 lb., \$13.00; 25 lb., \$56.25.

SEMESAN BEL—for seed potatoes

Potato diseases cause a loss equivalent to the yield of 1 acre in every 5 or 6 acres planted. Much of this loss can be prevented by treating seed before planting with Semesan Bel, the instantaneous dip disinfectant. Effective in controlling such seed-borne diseases as scab, rhizoctonia and black leg. Protects seed piece from rotting caused by certain soil borne organisms, improves germination and usually produces a bigger crop of better quality. One pound treats 16 to 22 bushels of seed. Prices: 4 oz., \$.50; 1 lb., \$1.75; 5 lb., \$8.00; 25 lb., \$31.25.

SEMESAN JR.—for seed field and sweet corn

Our corn crop is reduced over 80 million bushels annually by diseases that are carried on the seed. Destroy these costly diseases by treating your seed corn with Semesan Jr. Simple, quick, effective. Costs only 2½¢ an acre. Harmless to seed, does not slow up the rate of drop. Semesan Jr. destroys harmful disease organisms on the seed, protects seed from rotting in cold wet soil, makes earlier planting possible, controls seedling blight, reduces root and stalk rots and generally increases crop yields. Use 2 oz. per bushel of seed. 4 oz., \$.50; 1 lb., \$1.75; 5 lb., \$8.00; 25 lb., \$31.25.

CERESAN—for seed grains

Why lose part of your grain crops through smuts and other diseases? Prevent them and protect your profits by treating all seed grains with Ceresan before sowing. Effective in controlling stinking smut and seed-borne flag smut of wheat; seedling blight of cereals caused by seed-borne scab; smuts of oats; covered smut and stripe of barley; kernel smuts of sorghums and millets; and seed-borne stem smut of rye. Seed may be treated in spare time. Ceresan is harmless to seed and does not injure grain drills. Only 2 ounces needed per bushel of seed wheat, rye, sorghums or millets and 3 ounces for oats and barley. Prices: 1 lb., \$.75; 5 lb., \$3.00; 25 lb., \$12.50.

SEED DISINFECTANTS

SHEPS PLANT SPRAY (NON-POISONOUS)

Get rid of destructive insects. Use SHEPS Plant Spray. Kills and controls both sucking and chewing insects but absolutely harmless to humans, birds, animals and pets. Will not "burn" delicate leaves or flowers. Makes green, healthy, lustrous foliage. No soap solution needed—simply mix with water.

Fungtrogen

Controls Black Spot and Mildew

A valuable spray to control black spot and mildew, highly recommended by the best professional growers. This strongly concentrated fungicide conquers mildew on Roses and all other plants practically over night. It also controls black spot. Use Fungtrogen on all plants, such as Hollyhocks, Geraniums, etc., as soon as you discover that they are showing signs of mildew attacks. Fungtrogen is an excellent preventive for rust on Carnations and the disease of Delphinium.

Spray Plants With Ever Green

Kills most plant pests, including cut worms, yet is harmless to man, birds and animals. Use it freely on tender plants even when in flower, as it will not injure them in any way.

Ever Green is easy to use. Just mix it with water and stir. It is pleasant to use, economical, does not deteriorate, perfectly safe in every way, does not injure the soil, kills slowly but surely, does not affect metal, and does away with such widely distributed and injurious enemies of plants as cut worms, cabbage worms, aphids, in fact, practically all sucking and chewing insects.

The Standard Hive with Metal Cover

This hive is the standard hive of the world and is the one most generally used by both the small and large honey producers of the United States on account of its light weight and the ease with which it may be moved from one location to another.

STANDARD HIVE WITH METAL COVER

Improved Packing Methods

Five one-story hives consist of one unit package of five bottoms, one of five covers, one of five bodies and one of fifty frames, making four packages instead of one as formerly packed; there are no hive-bodies exposed to injury in transit, they reach the customer clean, without the scars incident to a local freight shipment.

Beeway Section Super

This comb honey super takes the $4\frac{1}{4} \times 4\frac{1}{4} \times 1\frac{1}{8}$ beeway sections. The majority of the comb honey produced in this country is produced in this style section super. The combs of honey can be handled speedily and easily as the formation of the corners of the sections leaves ample room to hold the combs of honey without the risk of bruising the cappings. The super is $4\frac{3}{4}$ inches deep and may be used on either the standard or double-walled hive.

Airco Comb Foundation

WHY AIRCO? Beekeepers want AIRCO because they know the bees accept it in the quickest possible time. The bees have to make over the base of ordinary foundation. The AIRCO foundation has the steep pitch which the bees prefer. The bees do not change the angle of the new foundation, for it is already just right. A few hours' time saved in the building of the comb is therefore of great importance, but of more importance still is the advantage of providing wax and foundation that are at once acceptable and attractive to the bees.

Poultry Tonics and Remedies

With the present day method of keeping poultry in large groups the opportunity for trouble from parasites and diseases increases rapidly. It pays well to guard your investment in poultry by not only using preventive measures but by being ready for emergencies that may occur. The items which we offer you have all been tested by years of use and are guaranteed by the manufacturer to do the work for which they are intended or your money will be refunded.

Dr. LeGear Preparations

Poultry Prescription. This is a tonic and conditioner for poultry. It should be mixed in the dry mash feed at the rate of 2 lbs. to 100 lbs. of mash. 1½ lbs., 25c; 3 lbs., 50c; 8 lbs., \$1.00; 25 lb. pail, \$3.00.

Worm Powder. This powder is used

You can have them by mizing Dr. LeGear's Poultry Prescription

with the feed. Guaranteed to give satisfaction. Use a full pail or package. If not satisfied, your money will be refunded. Get it today.

for the control of worms in poultry. It is mixed with the mash at the rate of 2 lbs. to each 100 lbs. of mash and fed over a period of 3 weeks. 4 lb. pkg., \$1.00.

Worm Pills. These are nicotine pills to be used for the control of round worms in poultry. The pills are coated with a hard substance that does not dissolve in the crop of the bird but carries through into the gizzard where it is crushed. This releases a full strength worm solution directly into the intestines. This method does not sicken or throw the birds off production. 50 pills, 50c; 120 pills, \$1.00.

Dr. Hess Preparations

Pan-a-Min. Has been known to poultry raisers for more than 30 years as Dr. Hess Poultry Panacea. It is now a greatly improved product. More minerals have been added. It contains new medicinal ingredients, and other active ingredients in different proportions. The improved product has been given a new name. Dr. Hess Poultry Pan-a-Min means Panacea plus. Pan-a-Min is of high value to moulting hens, in egg production, in reducing chick mortality, in bone and feather growth and in maintaining health. It does not take the place of feed and no feed can take the place of Pan-a-Min. The cost is less than a penny per hen per month. 3 lbs., 50c; 7 lbs., \$1.00; 15 lbs., \$2.00; 25 lbs., \$3.00; 100 lbs., \$10.00.

Ver-mi-trol. A flock treatment for worms in poultry. No individual handling of birds is necessary. It is simply given with the feed in two 10 day courses, three weeks apart, with Dr. Hess Poultry Panamin fed regularly. It is not drastic, does not throw hens or pullets off production and does not interfere with the development of young birds. It is palatable, all birds eat it readily. As a preventive measure, to avoid worm infestation, a twice-a-year flock treatment, early summer and late fall, is strongly recommended. 4 lbs. (for 50 fowls) \$1.25; 10 lbs. (for 125 fowls) \$2.75; 25 lbs. (for 300 fowls) \$6.25. By express or freight.

Poultry Tablets. Formerly Roup Tablets. While there is no absolute cure for roup, Dr. Hess Poultry Tablets are of high value in treating locally the swellings incident to the disease. The Tablets are used as a local antiseptic and to medicate the drinking water. Thus used, they aid in preventing spread of the disease. Once the Tablets are in solution, they remain so permanently. The water is evenly medicated and requires no further stirring. 100 tablets, 50c; 225 tablets, \$1.00.

Chick Tablets. Most diarrhea conditions in chicks, often mistaken for Bacillary White Diarrhea, are the result of improper feeding or brooding, and can be corrected by Dr. Hess Chick Tablets. These Tablets are a bowel

Dr. Hess Preparations (Ctd.)

astringent to be given in drinking water. Once the Tablets are in solution they remain so indefinitely. No need for further stirring. Solution is thoroughly medicated and all good until used. 100 tablets, 50c; 200 tablets, \$1.00.

Instant Louse Killer. Kills lice on stock and poultry. Easily applied by putting in dust bath. Hens work it down into the feathers where the lice are. It kills lice on contact. It is also applied directly to the fowl if badly infested. Kills lice and bugs on cucumber, squash and melon vines—slugs on rose bushes. It is non-poisonous, so may be used on edible plants with entire safety. Comes in handy sifting-top cans. 1 lb., 25c; 2½ lbs., 50c.

Dip and Disinfectant. A dip that makes a perfect milk-white emulsion—never any streaks or settlings. Remains in emulsion indefinitely. It is a standardized product with an established carbolic acid co-efficient; always uniform in strength, no matter where purchased. Because of its strength, its uniformity, its perfect emulsifying qualities, with its germ and insect killing powers, it is a most inexpensive dip to use. Valuable about barns and stables; kills hog lice and other parasites and keeps down foul odors. 12 oz., 40c; 1 qt., 65c; ½ gal., \$1.00; 1 gal., \$1.75.

Lee Preparations

Gizzard Capsules. For the control of worms in poultry. 50 adult size, \$1.00; 100 adult size, \$1.75; 50 chick size, 65c; 100 chick size, \$1.00.

Germozone. A liquid to be used in drinking water as a preventive for colds and roup. 12 oz. bottle, 75c; 32 oz. bottle, \$1.50; 1 gal., \$4.50.

Germozone Tablets. The above product in tablet form. Easily dissolved in water. 20 tablets, 25c; 75 tablets, 75c.

Louse Powder. In sifter-top can. 1 lb., 25c; 2½ lbs., 50c.

Egg Maker. A tonic and conditioner to be mixed with a dry mash at the rate of 7 lbs. to 100 lbs. of mash. 5 lbs., 90c; 25 lb. pail, \$3.75.

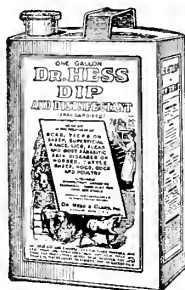

Vapo-Spray. A new treatment for the control of influenza and roup. 1 qt., 75c; ½ gal., \$1.25; 1 gal., \$2.00.

Flu-Koff Emulsion. To be mixed with the mash as a companion product of the Vapo-Spray. 12 oz. bottle, \$1.00; 32 oz. bottle, \$2.00.

Lice Killer. 1 qt. can, 60c; ½ gal., 90c; 1 gal., \$1.50.

Revenge Louse Powder. One of the best methods of controlling poultry parasites. 1½ lb. can (enough for 100 birds), 65c; 3 lb. can (enough for 200 birds), \$1.00.

B-K. A wonderful disinfectant. Can

be used in drinking water for the control of baby chick diseases. Also an ideal disinfectant to use around the dairy. 4 oz., 35c; 10 oz., 60c; 1 qt., \$1.25; 1 gal., \$3.00.

Rat and Mice Poisons

Rat Scent. This rat and mice poison has proven very effective in control of these pests about the barn and poultry house. The poisoned grain will not harm poultry, and other pets such as dogs or cats are not attracted by it. Ready to use, no mixing necessary. Price, 35c per box.

K-R-O. Kills rats only. A red squill preparation. Poisonous only to rats. Will not harm other animals. To be mixed with meat to make a large number of baits. Price 75c per can.

Dog Foods

Champion Dog Biscuit. These Dog Biscuits or Dog Cakes are a combination of cereal and meat balanced in the proper proportion and baked into a hard biscuit. These can be given dry or can be soaked in hot water or milk for feeding soft. These form a complete, well balanced ration or they can be used to supplement other foods. Price 15c per lb.; 10 lbs., \$1.40; 25 lbs., \$3.25; 100 lbs., \$12, f.o.b. Des Moines.

Champion Kibbled Biscuit. This is the Champion Biscuit broken up into smaller pieces. They are more convenient where the feed is softened before feeding. Prices same as for Dog Biscuits.

Champion Puppy Meal. A specially prepared food for younger dogs. It is ground finer than the Kibbled, so that it can readily be softened if necessary. Prices same as for Dog Biscuits.

Ken-L Ration. A canned meat for dogs, making a safe way to feed meat to your dog. No. 1 size cans, 15c each; 7 for \$1.00; \$6.50 per case of 48 cans.

STAR CORN SHELLER

BIRD DEP'T. IOWA SEED CO.

Our bird department is an interesting and attractive place and in selecting the items which we offer we have endeavored to choose those which we knew would be very satisfactory.

The presence of living pets, such as a canary or goldfish, in the home always adds to the enjoyment derived from the home. Young and old enjoy the cheerful song of a good canary and everyone is attracted by the beauty of a bowl of goldfish. Our usual standard of only one quality—the best—is maintained in this department.

We guarantee safe arrival of all birds and fish we ship. Prices quoted include packing for shipment. The transportation charges are to be paid by the purchaser except on items marked postpaid.

Canaries

Little Dewdrops of Celestial Melody. A canary makes an ideal pet for the home. The canaries we offer have been carefully trained and tested. Our guarantee that they will sing for you protects you fully.

Imported St. Andreasburg Rollers. These are the most popular of all Roller canaries. Their low, soft, sweet, rolling song is a wonderful revelation of melody. Guaranteed to sing. Choice songsters, \$11.50 each. Extra select, \$14.50 each.

Martz Mountain Canaries. This name is applied to the canary whose song is more varied than the Roller's song. Often there will be many notes of the Roller song, to which have been added the natural notes. You will never

HARTZ MOUNTAIN CANARY

grow tired of your Hartz Mountain canary's cheerful song. Guaranteed to sing. Good singers, \$5.75 each; choice singers, \$7.75 each; extra select, \$9.75.

Love Birds

Or Australian Paroquets

These brightly colored birds make very satisfactory cage pets. They get along nicely in a regular canary cage. Price, \$9.50 a pair.

Plants for Rock Gardens

The attractive flowers and plants of the mountains can be brought to our homes if we give them an environment that is homelike. A rock garden can be easily constructed especially when there are plenty of stones. Select a location preferably partially shady, where the ground is well drained. Begin by placing the stones so as to allow the moisture from rains to run into the garden and not away from it.

After placing a stone in position, work the soil in well around it in order to allow the moisture to work up among the stones and give the proper conditions for growing rock plants. Any air spaces that are left between the stones will prevent an even degree of moisture in the garden. Rock gardens can be made any height desired, but are usually not more than 10 or 15 inches above the surrounding ground. When building the upper course, be sure that planting spaces 8 to 10 inches in diameter are left so that a number of plants can be planted on the top.

Prices on all rock garden plants listed on this page are as follows: Each 35c, 3 of a kind 75c, doz. \$2.50 postpaid.

Alyssum Saxatile—Masses of bright yellow flowers in early spring.

Arabis Alpina—Double, white; fragrant flowers produced early in the spring.

Aster Alpinus—3 to 10 in. high. Bears large showy bluish purple flowers with yellow centers in May and June.

Aster Mauve Cushion—8 to 10 in. high. Delicate mauve with silvery cast. Very large flower.

Aubrietia Deltoides—One of the daintiest and most delicately beautiful of all dwarf, creeping plants. Forming brilliant sheets of blue, crimson or rose for many weeks.

Calamintha Alpina—Graceful rock plant with purple flowers. August.

Campanula Carpatica—A pretty species growing in compact tufts, not exceeding 8 in. high; flowers clear blue; held erect on very stems. It begins blooming in June, continuing until October.

Cerastium Tomentosum—A low, creeping plant with the upper surface of the leaves light in color and woolly; it bears a profusion of pretty white flowers.

Dianthus Deltoides—Maiden pink. Dark carmine—pink.
